Subject: Innovation

Everytime litigation is mentioned the stock market and the economy is affected. The comprehensive agreemen,already agreed upon, is really a rough one. If further penalties are agreed upon,i can't imagine what will happen to the economy,which i think is coming back.

The goverment gives large amounts of money to big business and to Columdia[which get into the hands of the wrong people]

Let Microsoft have the freedom to inovate and not let the special interest groups defeat us

Make us proud of you,
Helen Gildea
